## SUMMARY

Experienced MERN Stack Developer with 2 years of experience, skilled in building responsive and scalable web applications using JavaScript, React.js, Node.js, and MongoDB. Strong collaborator with a focus on delivering high-quality user experiences. Proficient in integrating secure payment systems and developing platforms using modern web technologies. Experienced in maintaining clean, efficient code and optimizing applications for performance and scalability.

## WORK EXPERIENCE

### Austrix technologies LLC (remote)

Jul 2023 - Aug 2025

- Developed web applications using the MERN stack, ensuring scalability and performance.
- Collaborated with teams to design and implement features, enhancing user experience.
- Participated in code reviews to maintain high code quality and optimize backend processes.
- Assisted in gathering requirements and translating them into technical solutions.

## EDUCATION

### Diploma in Software Development

Jan 2022 - 2023

Institute of Software Development

- Specialization in Full-Stack Development.
- Completed projects focused on modern web technologies like React.js, Node.js, and MongoDB.

### Higher Secondary Education (Science)

Jul 2019 - Mar 2021

Focus on Biology and Mathematics

- Developed a strong foundation in biological sciences and quantitative analysis.
- Participated in laboratory experiments and math competitions, demonstrating skills in research and problem-solving.

## FREELANCE PROJECTS

### Learning Management System (LMS) for an Stack Institute | [Link](#)

- **Description** :Designed and developed a feature-rich LMS tailored for an educational institute, enabling advanced teacher-student management, real-time communication, and detailed student performance tracking.
- **Role** : Sole developer for the entire project, handling both the frontend and backend development..
- **Key Features**:
  - Advanced Student Tracking: Tools for monitoring attendance, grades, and overall performance, ensuring data-driven decision-making.
  - Real-Time Chat: Enabled instant communication between teachers and students for query resolution and feedback.
  - Assignment Management: Integrated system for creating, submitting, and grading assignments with automated notifications.

## PERSONAL PROJECTS

### Skillera

- Created an LMS platform with responsive design and smooth user experience.
- Integrated Stripe for secure payments, Cloudinary for media management, and user management features.
- Project URL: [Skillera](#) | [GitHub](#)

### AspireLink

- Developed a job portal using the MERN stack, featuring responsive UI/UX and secure user authentication.
- Integrated Node.js for backend efficiency and Cloudinary for image uploads and management.
- Project URL: [AspireLink](#) | [GitHub](#)

### Beach Resort | Hotel Room Booking System

Developed a hotel room booking system for a beach resort, allowing users to browse, select, and book rooms with secure payment integration.

Designed a responsive UI/UX with real-time room availability and booking management features

Project URL: [Beach-resort](#) | [GitHub](#)

## SKILLS

**Programming Languages:** JavaScript, HTML, CSS, TypeScript

**Technologies & Frameworks:** React.js, Node.js, Express.js, MongoDB, SQL

**Tools & Libraries:** Redux, Git, Bootstrap, Tailwind, Next.js

**Design & Development:** Responsive Web Design, UI/UX Design, Figma, Photoshop

**Others :** RESTful APIs, Agile Development, Digital marketing
